PROJECTS

Intervu – AI Interview Evaluation System (Python, OpenCV, MediaPipe, Gemini API)
- Engineered a real-time posture detection pipeline using computer vision.
- Integrated AI-driven semantic evaluation of technical responses.
- Generated automated performance analytics reports.

CareLink – Healthcare Mobile Application (Flutter, Firebase)
- Built real-time hospital navigation and authentication system.
- Integrated secure medical record handling and cloud storage.

Chatting Application (Flutter, Firebase, Cloudinary)
- Developed a real-time messaging application with user authentication and chat room functionality.
- Implemented instant message synchronization using Firebase backend services.
- Designed a clean and responsive UI to ensure smooth communication experience

Widget to Merge Leads in Zoho CRM
- Designed a custom Zoho CRM widget to detect and merge duplicate leads efficiently.
- Implemented record comparison logic to maintain accurate and consistent data.
- Reduced manual data cleanup efforts and improved CRM reliability.

Custom Site using Experience Cloud
- Developed a branded community portal using Salesforce Experience Cloud.
- Configured custom pages, role-based access control, and data visibility settings.
- Integrated CRM data to deliver personalized and secure user interactions

Sportshub – MERN Stack Platform
- Developed scalable full-stack sports community platform.
- Implemented authentication, dashboards, and real-time updates.

WORK EXPERIENCE

Software Engineer Intern – Devsinc
Specialization : Salesforce
- Completed 30+ Salesforce Trailhead modules specializing in Apex, LWC, Experience Cloud, and automation.
- Developed and customized Experience Cloud community portals to enhance customer engagement.
- Built Lightning Web Components and configured Apex, Flows, and declarative automation to optimize business processes.

Software Engineer Intern – Xpert Prime
Specialization: ZOHO Development
- Completed internship focused on developing and customizing solutions on Zoho platform.
- Worked with Zoho CRM, Zoho Books, Zoho Forms, Zoho Bookings, and SalesIQ.
- Built automated workflows using Deluge scripting, webhooks, APIs, Zapier, and Postman to streamline client operations and improve business efficiency.
